Comments

If you have any comments about the Issues and Options Document or the Sustainability Appraisal please set them out in the box below. If your comments are in relation to a specific question or chapter of the Issues and Options Document then please state which question or chapter your comments relate to.

I do not believe enough thought is given and money from central Government currently or in the last 20 years to housing. All over the country we have not built sufficient social housing particularly in London.

There is no point in central Government dictating to the country to build X number of houses, without giving the areas that are instructed to building the houses sufficient money for beds in Hospitals this includes all the nursing and Dr's required. From my own experiences in the last 2 years there are insufficient beds available in Hospitals currently in this area!

Continue on a separate sheet if necessary
