### Housing

1. Do you consider that a housing need figure of 366 dwellings a year is an appropriate figure on which to plan for housing growth in North Dorset? If not, please set out what you consider to be an appropriate figure and provide reasons for this.

Yes

No

*If you have answered 'No' please set out an alternative housing figure and provide reasoning to support your answer.*

A number cannot be given as it depends completely on employment opportunities in the area.  
It will probably be less than 200 per annum.

### Employment

2. Do you consider that additional employment land should be allocated for development at Blandford as part of the Local Plan Review?

Yes

No

3. Do you consider that there is a need to allocate additional employment land in any other part(s) of the District?

## Comments

If you have any comments about the Issues and Options Document or the Sustainability Appraisal please set them out in the box below. If your comments are in relation to a specific question or chapter of the Issues and Options Document then please state which question or chapter your comments relate to.

12, 13, 14 Shaftesbury

Analysis of house numbers already built plus schemes which already have consent means that Shaftesbury has borne/will bear over 50% of the total NDDC requirement.

Building houses South of the A30 is a current idea. It must be resisted.

The idea of development other than employment uses is outrageous. The Inspector upheld the opinion that a view across to the Combe chase was very important.

Delete Area C from housing development.

29. Recent government comment/announcements included (a) housing should be concentrated around existing major conurbations.

(b) develop/construct bypasses where they will greatly assist communication between major commercial areas.

The "concept" of a Medway to Manchester route including the A350 is really absurd!

The bypass around Shaftesbury connecting Blandford to A303 and on to M4/M5 is a must by these new central government structures.
