

Sirs,

I wish to object to the wording in Item 4 - Catmead Grass Space, of the LGS Assessment in the Puddletown plan which has recently been submitted to you.

Under the reasons explanation for including this area it states that this makes the area more pleasant and is suitable for " informal play".

It further shows that this is private land with no public access. In that case any non residents of Catmead indulging in "informal play" would be trespassing.

As it is totally wrong for the Parish Council to encourage trespassing I request that the phrase about informal play should be deleted from the plan.

Valentine Cox.
