

Consultee response for application **WP/20/00692/DCC** from **Archaeology**
19/11/2020

Bearing in mind my previous comments [Scoping Opinion], I don't think there's anything related to below-ground archaeology that I need to comment on.

There are potential setting issues for various heritage assets of course. Ordinarily the comments of Historic England would cover Scheduled Monuments such as Portland Castle and The Verne, and I take it that James Weir is commenting on listed buildings (I'm copying this to James for information and further comment if he wishes).

All the best

Steve
