## 2. Appendices A to G

The following Appendices detail the sites included in the 5 Year Housing Land Supply for the Annual Position Statement. It is important to note that where yearly trajectories are provided, these are indicative and based on specific developer input, and/or the Council's assumptions for reasonable expected housing delivery rates each year. The Council recognises that yearly delivery is liable to change, however the '5 year supply total' shown in each table is considered to be a reasonable expectation of delivery across the 5 year period.

## Appendix F: Minor sites windfall allowance

Delivery of minor windfall completions across the Council area over the past five years has been analysed and is shown in Table F1, with the number of dwellings completed shown for each year in the past five years. This past delivery has then been compared to the number of minor windfall sites currently in the 5 year housing land supply (see Table F2). There is a shortfall of sites currently in the supply when compared to windfall delivery over past five years, and this shortfall forms the minor sites windfall allowance for the draft Annual Position Statement.

A minor sites windfall allowance of 709 dwellings is equivalent to approximately 1.8 years' worth of the average past delivery across the area over five years and is considered to be a reasonable estimate of potential future delivery in the next five years.

Minor windfall permissions and completions have been affected in recent years (mainly in West Dorset and Purbeck), by the need for development to demonstrate nutrient neutrality. This has resulted in planning permissions and development commencement being delayed in affected areas. However, it is expected that
